# ***ABOUT CÍRCULO***

Founded in 2018, it stands as a rising power in the Chilean business landscape, specialized in the strategic deployment of projects in the effervescent area of energy project development. With a sharp focus on small, medium and large generation projects; Círculo demonstrates not only its capacity in initiatives of specific dimensions, but also its comprehensive capacity to address a wide variety of energy projects of any magnitude.

Círculo Ingeniería is not only concerned with providing innovative energy solutions, but also with doing so in an ethical and sustainable way. The aim is for projects to meet the highest standards of social and environmental responsibility, thus contributing to the care of the planet and the construction of a more sustainable future.

# Mission

---

Círculo Ingeniería's mission clearly focuses on contributing to reducing uncertainty in our clients' energy projects. More than simple consultants, we act as advisors committed to guiding our clients in making decisions and achieving their objectives in each project.

# Values

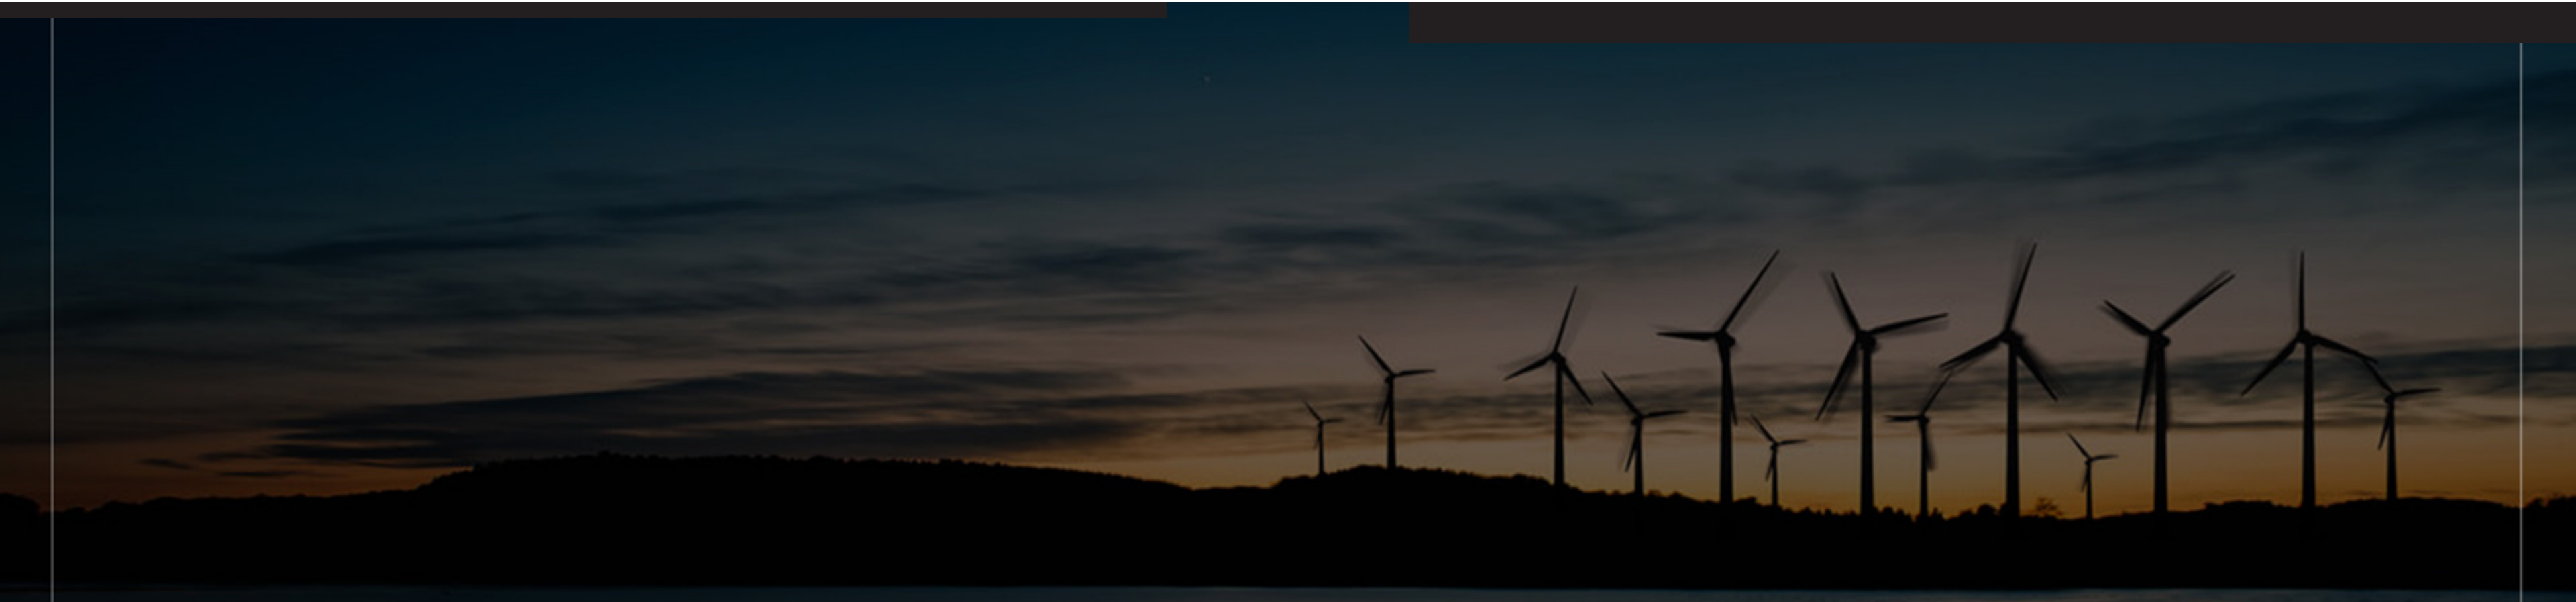

---

**Transparency**  
**Support**  
**Strategy**  
**Commitment**

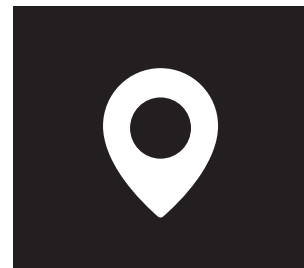

# Vision

---

“To be a reference in energy matters and contribute to reliable decision-making”

# GOALS

**Position ourselves as a reference  
in the development of energy  
projects in Latam**

**Highlight our engineering  
consultancy area as one of the  
highest standards in Chile**

**Achieve international links to  
achieve the decarbonization of  
the energy matrix**

# BACKGROUND

**2019**

It developed its first portfolio of PMGD projects transferred to international investors and created a consulting area in electricity generation.

**2021**

The process of developing 9 MW PMGD projects began, and consolidated the electrical consulting area, providing services to large companies.

**2022**

Closed various commercial agreements to provide engineering and development services. Focusing on electricity market.

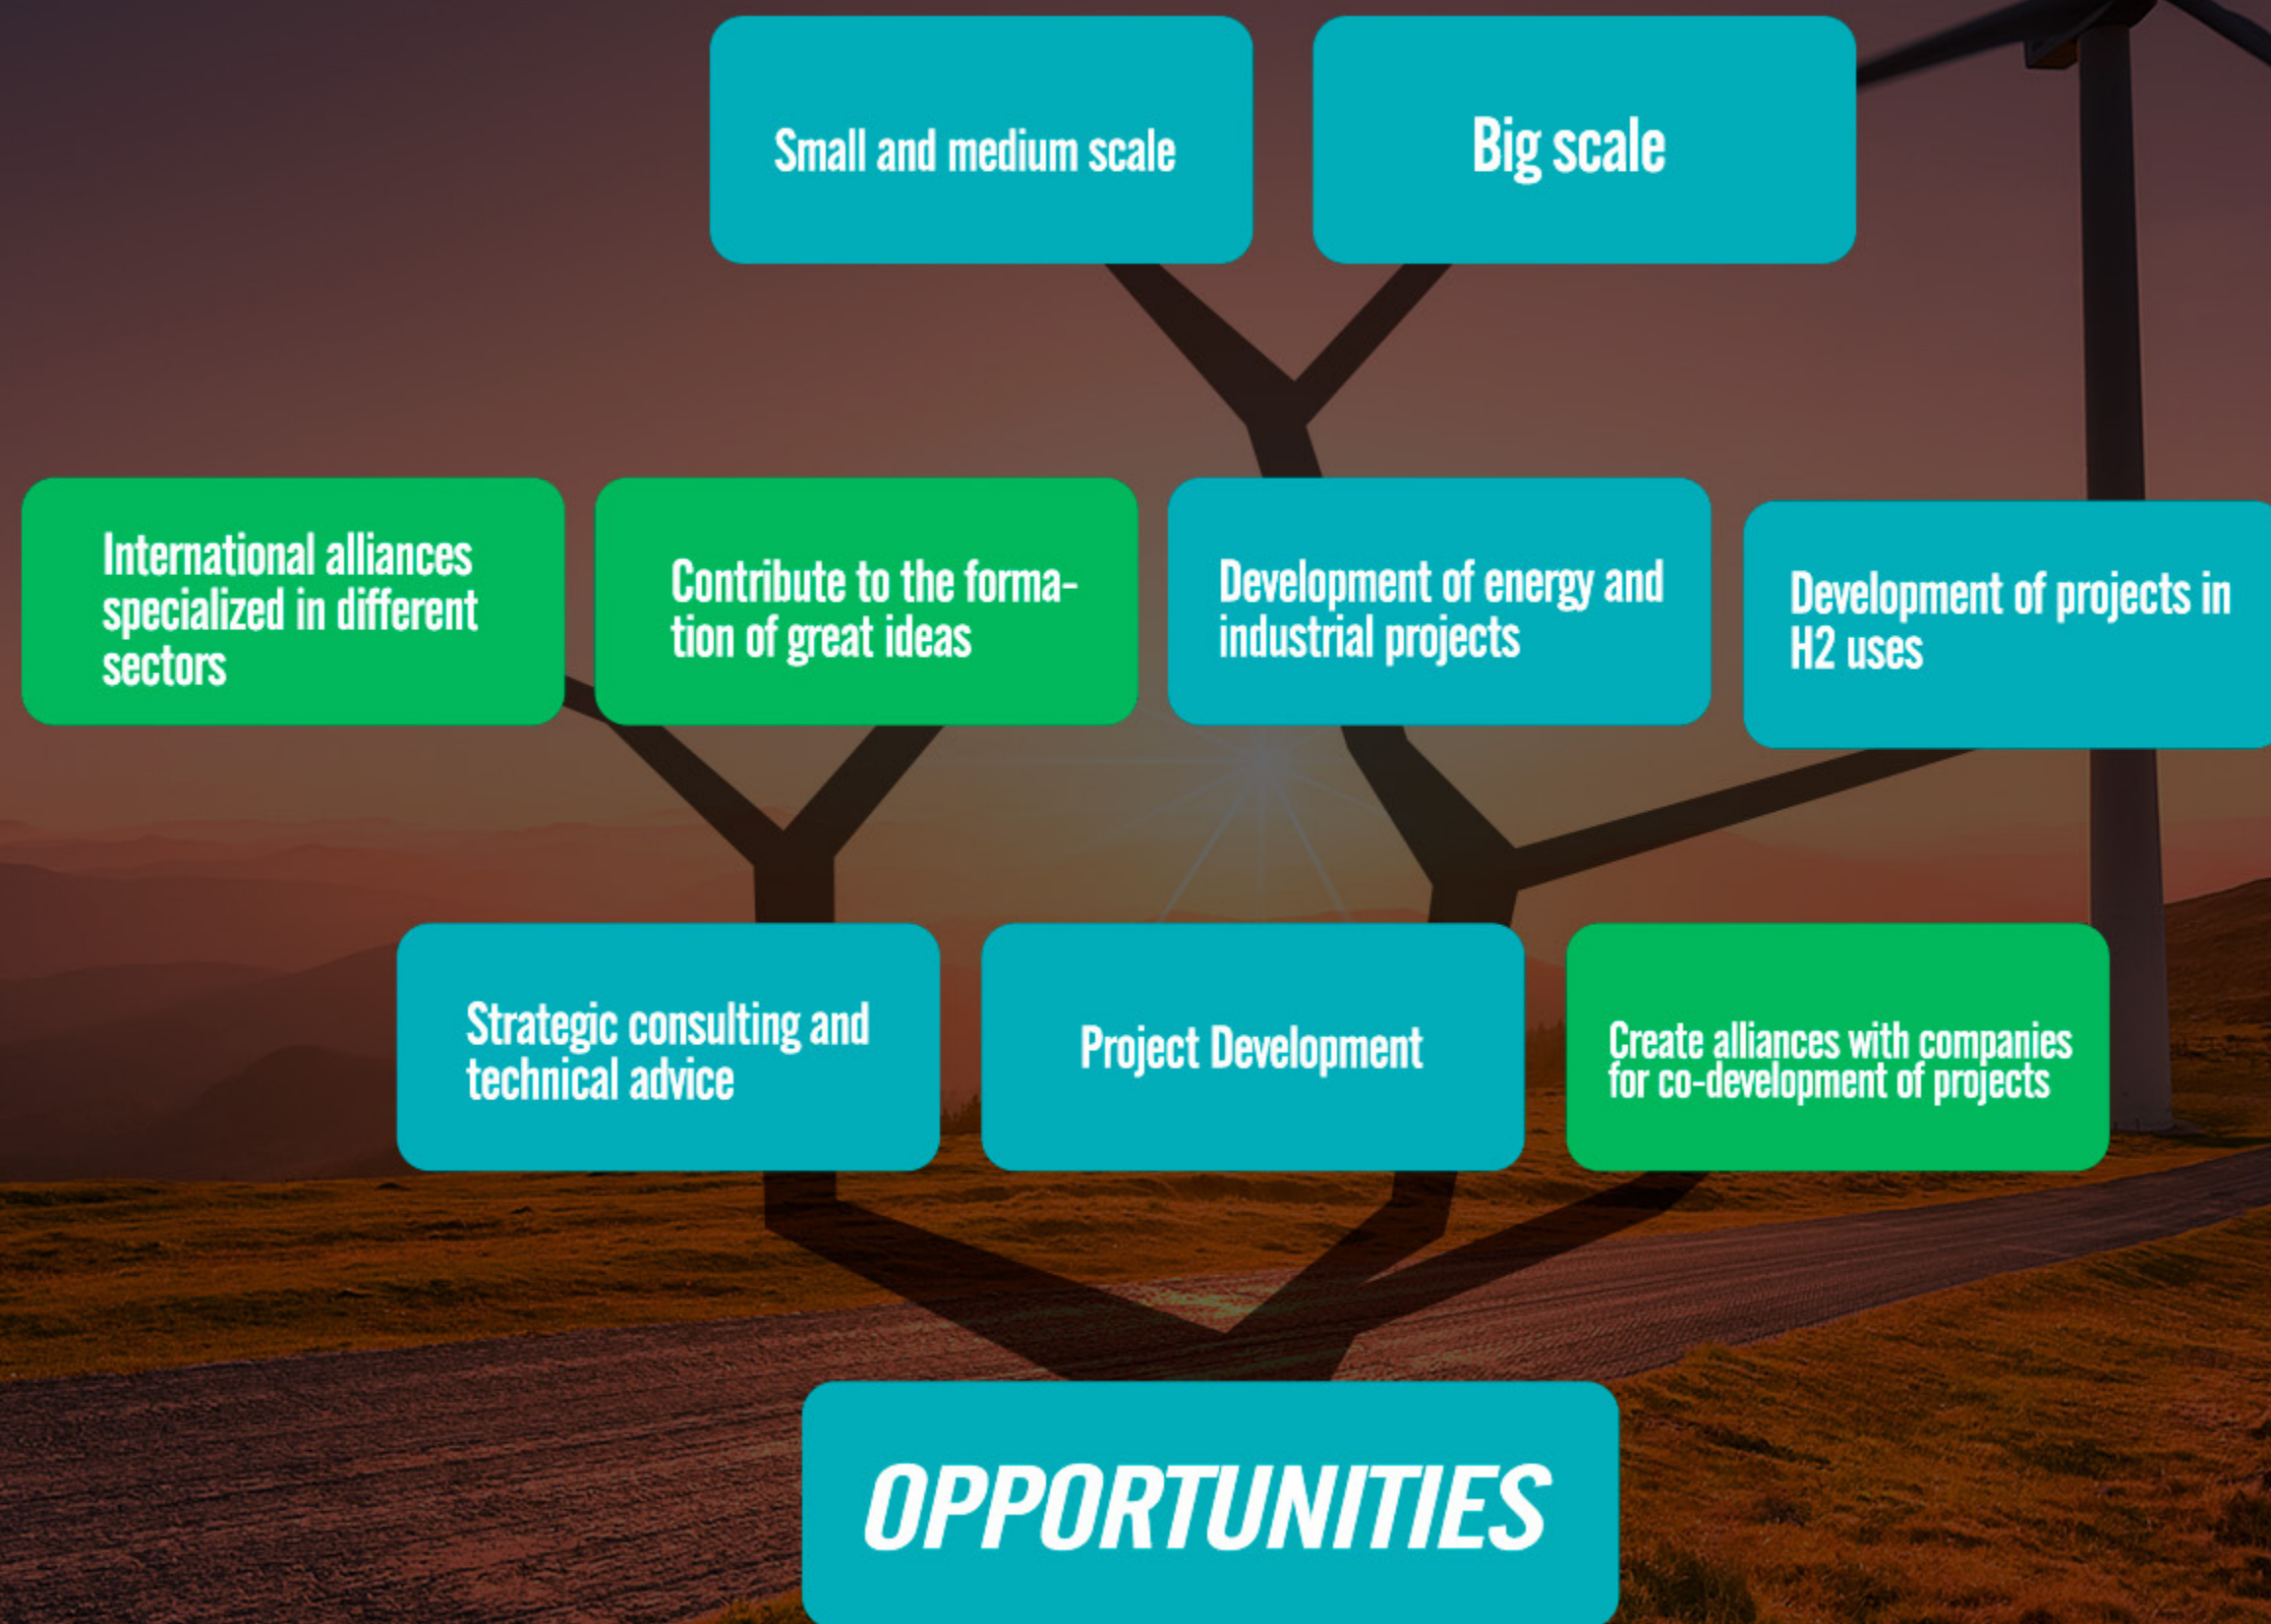

**2023**

It began its development and collaboration process in Utility Scale projects and strategic consulting for engineering and regulation of the electricity market. Diversifying services to mining and industries.

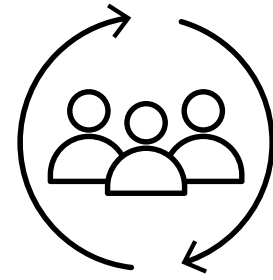

# ***WHAT DO WE DO***

CÍRCULO IT GOES BEYOND BEING A CONSULTANT IN ENERGY PROJECTS, WE POSITION OURSELVES AS STRATEGIC PARTNERS COMMITTED TO EACH PHASE. WITH PROACTIVE COLLABORATION CLOSELY WITH OUR CLIENTS TO ENSURE SUCCESS AT EVERY STAGE OF THE PROJECT.

# ¿ OUR BUSINESS STRUCTURE ?

# VALUE PROPOSAL

## WE ADVISE STRATEGICALLY

We analyze the project situation in detail, identifying opportunities and developing a strategic action plan

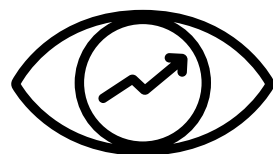

## PROJECT MANAGEMENT WITH IDENTIFIED RISK

In the activities we develop, we identify critical routes to detect action elements at each stage.

## EARLY PHASE RISK DETECTION

We identify the elements that present opportunities and problems which must be considered

## COMPREHENSIVE AND MULTIDISCIPLINARY VISION

We have a team with participation in various disciplines which provides a multisectoral vision in each activity and each task is carried out with a global vision and this gives meaning to each work.

## ¿WHY?

### ***BPS CÍRCULO INGENIERÍA***

**For**

Investment funds and clients who want/need to make a sustainable transition or invest in part of the value chain of the energy sector, through our strategic consultancies, technical consultancies or developments.

**It is the**

Company specializing in projects in the energy sector.

**What**

We seek to solve the real need in each case, based on our extensive experience in the evaluation and feasibility of sustainable energy solutions, from renewable energy generation and industrial efficiency to process inspection and management.

**Because**

- \*1,900 MW team participation in UTILITY-SCALE
- \*36 MW solar PMGD developed
- \*150 MW PMGD co-developed
- \*6 countries of team experience
- \*We have a specialist energy team
- \*Strategic partners

**So**

Our clients can rest assured with their strategic energy investment projects.
